1 Introduction

We set high standards for the way we do business. This Supplier Code of Conduct (the Code) sets out minimum standards of behaviour and practices we require from our suppliers. We expect our suppliers to adhere to this Code, in addition to the provisions of any commercial terms agreed between OLG and the Supplier.

In the event that local law, regulation or rules impose stricter requirements than this Code, suppliers must comply with those requirements.

1.1 Purpose

The Code specifies the minimum standards of behaviour OLG requires of our suppliers. The requirements identified in the Code are based on the principles of the OLG Code of Conduct, and are mandated through the OLG General Conditions of Purchase.

The purpose of the Code is to communicate OLG's requirements and expectations to the supply chain; it is freely available to view and can be downloaded from www.olguk.com.

Suppliers are required to adhere and comply with the principles set out in this document.

1.2 Content, scope and applicability

The Code is applicable to all suppliers and partners who supply product or services related to OLG and their subsidiaries contracts or purchase orders.

Suppliers are expected to cascade these principles to their own suppliers in order to ensure alignment across the supply chain. This may involve the establishment of supply chain management processes that integrate the requirements of the Code.

2 Operate safely

All suppliers must make proper provision for the health, safety and welfare of their employees, contractors, visitors and those in the community who may be affected by their operations. We expect suppliers to comply with legal and industry requirements and seek to implement best practice in their industries.

2.1 Health, safety and environment (HSE)
